

F.I.R.E. IGNITING LIVES PSYCHOLOGY

F.I.R.E., Fearless Individuals Resistant to Entrapment, was created to help motivate people to become strong, capable, and adept **life-changers** and mountain-movers, by coaching them to break all their ceilings and reach new levels in life! - **Dr. Gimel**

About Us

Welcome to Fearless Individuals Resistant to Entrapment (F.I.R.E.) Igniting Lives Psychology was birthed from observing how adolescences and young adulthood can be a very difficult time of transition and metamorphosis, and sometimes during this period in life, a person can become stuck or entrapped. Whether the entrapment is low self-esteem, peer pressure, mental or physical sickness, lack of family and friends support, educational disparities, financial hardships, stress management while juggling multiple obligations, or figuring out what the next step in life is professionally or personally, at F.I.R.E. we want to provide each person through our various services to learn how to push through and rise like a phoenix.

Clinical and Forensic Associate Trainee

Overview

Our practicum provides students with a commencement experience to clinical and forensic psychology with an emphasis in trauma. The focus of this practicum is on preparing students with an interest in forensic psychology for a career in this field. Students will learn the basics about the intersection of psychology and the law in both the criminal and civil arena.

Students will learn how to review legal and other records, prepare summaries of records, practice case conceptualization, and complete comprehensive psychological reports for a variety of psycholegal questions, including but not limited to competency, insanity, nexus, as well as diagnostic clarification. This practicum will provide professional growth and development by assisting the trainee with development of resume/curriculum vitae, personal statements for other experiences, and interviewing techniques. Trainees will also learn how to search for the latest research, assessment tools and theoretical developments. Research and publication opportunities are available.

Application Process

Training Days:

- Mondays are mandatory group supervision and trainings
- Tuesday - Thursday depending on your institution's schedule, you will be expected to do evaluations, writings, and/or trainings; etc.

Applicants should:

- Possess strong reading and writing skills
- Enjoy critical thinking
- Be detail-oriented
- Be flexible
- Not be afraid to ask questions!

Please provide the following materials to apply to the position:

Cover letter
Resume/CV
Sample report

References: 2 prior psychological supervisors and one non-supervisory professional reference

An unofficial transcript must be provided along with answering the following questions in two pages or less:

1. Why do you want to learn about forensic psychology?
2. What do you know about trauma?
3. What are you hoping to gain from the position?
4. Are you able to commute?
5. If applying to the part-time position, what hours and days are you most available (note Mondays are mandatory for supervision)?

The start date will be agreed upon between the trainee and the director of clinical and forensic training. If you are interested in the position, you can send your materials to apply@7fire8.com.
